Docket No. 98N-1265 | 368 '99 MAR 24 A9:44

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

March 18, 1999
3-19-99

COMMENTS:

As the husband of a wife whose physicians were unable to help & treat menopause, I am vehemently opposed to restricting the only medical compounds that have helped her. I can personally attest to the fact that had my wife not been able to procure the natural progesterone across state lines she would not be enjoying the mental and physical health she has today. Four different local physicians were unable to prescribe or prescribe an equivalent medication from any of our local pharmacies.

Please do not allow the FDA to hold us medical prisoners by restricting our right to obtain the help we need and presently enjoy.
